dancing and live auction entertainment
Saturday, October 13, 2007 at Seven-thirty
Thalhimer Pavilion at the Science Museum of Virginia
2500 West Broad Street in Richmond

Black tie attire
Please reply by
October 1

FightSMA is a 501 C3 parent-led organization that funds research for Spinal Muscular Atrophy (SMA). SMA is the number-one genetic cause of death in children under two years old. One in thirty-five people carry this gene unawares. NIH, recognizing the severity of the disease and the promise of a cure, has chosen SMA as a model disease. Because research for SMA benefits countless other childhood genetic diseases as well as ALS (Lou Gehrig's Disease), Parkinson's and Alzheimer's, it is truly a vanguard disease. Fighter Mom, a FightSMA mentoring program, offers advice and instruction to any mom whose child is fighting any disease or disorder. There are more than 6,000 orphan diseases. And, in the United States alone, there are 9.3 million homes to children with disabilities. The range and reach of SMA and this unique program are substantial. Please consider today how you can invest in FightSMA.
